ZEISS

Seeing beyond

Outstanding performance
in low light conditions.

The ZEISS Secacam 3 impresses with 60 black LEDs and a light-sensitive sensor light-sensitive sensor that delivers sharp images even in the dark. Intelligent flash regulation prevents incorrect exposuresand optimises energy consumption.

ZEISS IR Boost technology
ZEISS IR Boost technology optimises 940 nm infrared light, delivers image quality like 850 nm IR light and remains invisible to wildlife. This innovation makes the ZEISS Secacam 3 the ideal choice for precise, unobtrusive wildlife surveillance.

Daytime image

16:9 for a wider field of view

Night recording

Advanced animal recognition
& „Color the Night"

The artificial intelligence (AI) based animal detection of the ZEISS trail cameras is an advanced, technology optimised for hunting use. Animals are automatically identified in images and videos and highlighted by a coloured frame.

With the 'Color the Night' feature night shots are recolored, to obtain detailed images even in the dark. AI functions are only available in combination with a service package.

Best app connectivity
ZEISS Secacam App

Our ZEISS Secacam app is the reliable interface between you and your trail camera and offers the following functions:

- Notification of new recordings & change of the camera status
- Viewing the photos sent
- Display of the camera status (online status, signal strength, battery status, SD card memory)
- Display of the mounting location
- Sharing the cameras with contacts
- Switching off and on the transmission function

The ZEISS Secacam app is available free of charge in the App Store and Google Play.
